Pune to Host A Power-Packed Industry Expo in March 2027

Corrugated packaging is closely associated with Pune as a major regional hub for manufacturing and industrial supply, supporting the city's heavy automotive, engineering, pharmaceutical, and consumer goods sectors.

From factory floors to fulfilment centres, corrugated packaging has become an essential part of India's manufacturing, retail and logistics ecosystem.

Driven by the rapid expansion of e-commerce, FMCG, food & beverage, pharmaceuticals, electronics and industrial manufacturing, the need for packaging that is strong, lightweight, cost-effective, customisable and recyclable is growing rapidly.

Demand Drivers

E-commerce

Corrugated boxes are a leading packaging format in India's rapidly expanding e-commerce ecosystem.

Food & Beverage

A major end-use sector, driven by packaged foods, organised retail and evolving supply chains.

FMCG

High-volume movement of everyday products creates continuous demand for efficient secondary packaging.

Pharma

Growing healthcare and pharmaceutical distribution requires secure, reliable and compliant packaging.

Automotive & Industrial

Western India's manufacturing base creates demand for heavy-duty corrugated packaging for components, parts and finished products.

Sustainability

Recyclability and fibre-based packaging are strengthening the case for corrugated solutions across supply chains.

CorrVision Pune brings the corrugated packaging ecosystem closer to the industries driving demand across Western and Central India.
